

Profit from our knowledge

With fourteen years experience managing business expenditure, Auditel have the expertise to manage and reduce your business costs across the board.

We're able to do this because we have in-depth knowledge of the complex markets in which we operate. From energy to communications and insurance to foreign exchange, we have an unrivalled reputation among suppliers who recognise the value and professionalism of Auditel's independent service.

In June 2008 the UK's leading energy, communications and business services providers paid to attend our annual Supplier Exhibition to tell us about products and services that will help your organisation. Amongst those present were **British Gas**, **EDF Energy**, **Shell Gas Ltd**, **RBS**, **UKTelco**, **Drivers Jonas** and **Travelex**.

Our supplier exhibition is one of the most important events in the Auditel calendar. It gives us a unique opportunity to build valuable supplier relationships, enhance our in-depth market knowledge and raise our profile as the UK's leading provider of independent cost management services. This means:

- an ability to negotiate and deliver unique purchasing solutions for your specific needs
- an in-depth understanding of how markets are developing and what this will mean for your overheads; particularly valuable in these volatile economic times
- higher savings and improved profitability for you
- expert management of your business overheads leaving you with more time to focus on your core business
- you can be confident that you'll never pay more than necessary for the services your business needs

▶ Listen to what two of the UK's leading energy suppliers, **EDF Energy** and **Shell Gas Ltd**, say about working with Auditel to deliver customer solutions.

i To find out how you can profit from Auditel's knowledge and experience call on to arrange a meeting.

Or go to www.auditel.co.uk for more details about the extensive list of overheads we can manage for you.
